

Professional, Affordable, Reliable

Multilingual DTP and Graphic Design

Final Graphic is dedicated to providing professional, affordable and reliable multilingual desktop publishing (DTP) and graphic design services to successful companies around the world. Our goal is to help our clients **lower costs, improve quality, and deliver faster.**

Professional

We understand that **quality** is of the utmost importance to our clients. Projects are expected to be typeset in the correct format, software, version, and platform. Final files need to be completed and as required by printers for trouble-free reproduction.

In order to insure accurate results, Final Graphic employs only the most experienced professionals who have proven their expertise through many years of working in the publishing industry. They have a proven track record of superior work and are fluent in at least one foreign language. We also utilize both Macintosh and Windows workstations fitted with the latest and most popular desktop publishing software. We can deliver in any format, version or platform.

Affordable

Now that rates are more **competitive** than they have ever been, it is crucial to cut cost whenever possible. Through a combination of automation and experience, we have increased productivity and, thereby, lowered costs. We pass these savings on to our clients by offering one of the lowest DTP rates in the United States. Additionally, we offer discounts for large-volume projects. We will work within your budget.

Reliable

We consistently deliver **on-time and on-budget**. We are aware how costly delays can be. We strive to always deliver projects on a timely manner and with the best quality. Our clients count on us to be there when needed and we will always honor that trust. We are in the same time zone, so you can call us anytime. We also offer extended hours for our clients who are not in the same time zone. Arrangements can be made to deliver some projects overnight or on the weekends. You can count on us.
